

RULE 26 REPORT

Report: Submitted by Ronald G. Lynch

Style: Alves vs. Harrison County et al

Opinions and Basis

The opinions expressed in this report are based upon materials provided, my education and experience. An updated vita is provided as part of this report. I reserve the right to update and/or amend this report when additional information becomes available.

I have relied upon my experiences as a law enforcement officer with emphasis upon my tenure as a patrol officer, accident investigator, homicide investigator, supervisor and commander for what is now called the Miami-Dade Police Department, Miami-Dade County, Florida; Chief of Police of Lakewood, Colorado; Major, Orange County Sheriff's Office, Orlando, Florida and numerous years of training law enforcement officers as a faculty member of the University of North Carolina at Chapel Hill and the University of Central Florida, Orlando, Florida.

The first opinion is that *Excessive Force was used on the plaintiff*. This clearly demonstrated by the pictures of the Plaintiff's injuries as shown in the photographs, medical report and Deputies report involving the Restraint Chair.

The second opinion is that the role of the Center is to provide proper care, custody and control of its inmates. In this incident the excessive force, failure to provide proper care for his injuries and the conspiracy of lying by Agency personnel shows a deliberate indifference in the handling of this incident. Such indifference is further shown by the intervention of the Federal Court and arrest and conviction of the guards.

My third opinion is that *there was a history of abuse to inmates*. This is demonstrated by the guilty pleas of the Deputies, the false reports and the failure to follow the Agency and reasonable standards on how to treat inmates. This demonstrated by the use of the Restraint Chair for some eight hours when the General Order concerning such use is closer to reasonable care and custody.
